

Vacation Bidding Option – Date Slide

Date Slide Option

The Date Slide Option provides Flight Attendants the option to 'slide' up to three vacation days, in either direction, from the start or end date in order to be awarded the vacation period desired during the bidding process.

When using this option, awards are based on the ability of the program to award the vacation by sliding in the following days: the original bid +1day, -1day; +2days, -2days; +3days, -3days.

NOTE: if the bid overlaps into another month, the system will only process the slide that is valid. It will avoid the slide that leaves less than four days in one month on a 14 to 16-day vacation bid, or, less than seven days on a bid of 17 days or more.

Also, if none of the slide options are awarded on your first bid, the process will be applied to your second bid, and so on. However, the program will not slide the bid in order to make it legal, your bid must be legal to start with.
